

PASSIVE HOUSE WINDOWS **HOLZplus PASSIV 100**

U_w = 0.8 W/(m²K)
U_g = 0.7 W/(m²K)

Our special expertise in the design and manufacture of our **HOLZplus PASSIV 100 WINDOWS** is reflected throughout the range by:

- Comparatively narrow frames
- Insulating core "LINITHERM" = WLG 030 material

Our PASSIVE HOUSE WINDOWS use the exceptional properties of WOOD, enhanced by the **following specific features**:

- Coloured inside and out as required (at no extra cost)
- Internal and external elements available in different types of wood
